Dear IRCA Member;

Thank you for your timely response regarding reception of KMYZ 1570AM on January 6, 1992 between 12:01am and 3:59am. I am pleased to verify that you were monitoring our transmission.

KMYZ-AM is a 1000 watt daytime only facility using a 205' single tower. One note you may find interesting is our 1948 vintage Gates BCF-1 transmitter. I believe there are very few of these still on the air today.

I have received reports with reception confirmation from as far as Florida, Ontario, Colorado and California.

I would like to thank all the members of the IRCA for the opportunity to put my transmitter through the paces and to participate in this activity with your organization.

Sincerely,

Joe Hancock  
Chief Engineer  
KMYZ AM-FM  
Pryor/Tulsa Oklahoma
