Dear DX'er:

I'm sending this letter to thank you for participating in the special DX Test broadcast from KTJS, 1420 KHZ, Hobart, Oklahoma Monday Nov. 4th, between 0130 and 0200. Your Reception Report indicates that you did indeed monitor KTJS.

Our transmitter is a Harris MW-1 Loaded into an omni-directional Unipole antenna system. The test was made at full power (1000 W).

The Test consisted of Voice ID, followed by Morse Code ID, followed by Music, and the repeated. The music was TV & Movie Themes that would hopefully be easily recognizable.

This was my first DX test and it was certainly a pleasure to hear from you. You have a fascinating hobby. Keep up the good work!

Respectfully,  
KTJS RADIO HOBART

*Eddie Williams*

P. S. A copy of our "normal" coverage map is enclosed.

*MR. HEINEN,*

*I'M SORRY WE DONT CURRENTLY HAVE ANY KTJS SOUVENIRS, HOWEVER I HAVE ENCLOSED A BUMPER STICKER FROM OUR SISTER STATION, KQ-106, (KQZ FM, 105.9 MHZ).*

*THANK AGAIN EDDIE*
