We'd like to thank YOU

for your interest in

C J S P RADIO !

This also provides us with the opportunity to tell you a bit more about ourselves.

Through the year, during our daytime hours of operation listeners throughout the SunParlor of Canada, which includes Essex and Kent Counties and throughout Southwestern Ontario, plus Northern Ohio and the State of Michigan dial Radio 71's friendly and informative voice to hear what we sincerely believe is the best possible programming.

With studio transmitter offices in Leamington, and a sales office in Downtown Windsor, CJSP 1 kw. daytime signal becomes air-borne via a 4 tower antenna array that produces a cardioid pattern of radiation with a north-east - south-west orientation.

We're glad that your radio dial has homed in on our signal and we sincerely hope that it will not be the last time.

Now for the 19 staff members, and all the other personalities, participants, advertisers and listeners who make our many broadcast services possible, again our thanks!

For C J S P RADIO

Robert Stephens

Robert Stephens,
Chief Engineer,
SunParlor Broadcasters Limited.
