

This is to verify
your reception of

CKKW

CKCO - TV

CFCA Stereo

at the time stated in your letter of

October 26, namely at 2.49 to 3.05pm EST

CKKW transmits on 1320 K.H.Z. with a power of 1000 watts from a site on the Roseville Road south of Kitchener. Daytime radiation is directional from two towers and night time radiation is directional from four towers. That's a good rig, there are over 65 other stations on this same freq. on the continent.

CKCO - TV transmits on Channel 13 with an omni-directional pattern from an effective height above the ground of 956 feet. Picture power is 325,000 watts. Sound power is 65,000 watts. The site is located at Baden (Hill) Ontario.

CFCA Stereo transmits on 105.3 M.H.Z. with a horizontal signal of 100,000 watts as well as a vertical signal of 100,000 watts. The transmitter site is also at Baden (Hill) Ontario with an effective height above ground of 812 feet.

**STUDIOS FOR ALL THREE STATIONS ARE LOCATED AT
864 KING STREET WEST, KITCHENER, ONTARIO**
