Dear Mr. Heinen:

Your reception report of two years ago was somehow mislaid, and only today reached my desk. Thus, with my profuse apologies for the extreme delay in responding, I am pleased to confirm and verify your reception of KEX at your location between 12:44 and 12:57 am Pacific Time, October 30, 1976.

This is a rather nice catch, since our signal is deeply nulled in your direction--we put only a couple hundred of our fifty thousand watts towards Colorado!

Sincerely,

Eric G. Norberg
Program Director
