Wayne Heinen
Colorado Springs, Colorado

Dear Wayne:

I'm happy to verify your correct report of our test on January 26.

The test was conducted using a 1946 G.E. xmtr and a 200 foot NON-D antenna located 500 feet out in the Seekonk River. (we use a boat)

By the way, there is a flute using the call GFRX but I think it's a pirate. Under 50 watts, no doubt.

73's

Craig Healy, C.E.
