Dear Mr. Heinen:

I am pleased to let you know of confirmation of our signal according to your report is correct.

Thank-you very much for the letter and the detailed listing of the programming recieved. We have had many DXing reports from all over the country. Reports have been recieved from both the east and the west coast as well as our borders to the north and south.

KWYR AM also has a sister station, KWYR FM. We simocast days, and our a.m is only a daytime station so when it goes off, we play easy listening at night. Our daytime programming from 6a.m to 8a.m is all country, then from 8 a.m to 6 p.m we play a half country-half easy listening.

Thank-you again and keep up the good work in your hobby. If you have any questions, please feel free to write me.

Very truly yours,

Doug Fickbohm  
Chief Engineer  
KWYR AM-FM STEREO
