February 24, 1976

Mr. Wayne Heinen
1028 Pike Drive
Colorado Springs, Co. 80904

Dear Mr. Heinen:

This will acknowledge your reception of WSIX-AM
on January 19, 1976 at 12:56 am.

WSIX AM radio operates on 980 KHz with a power
of 5,000 watts. We have three tower directional
array, with our power lobe to the southwest at night.
We are nondirectional during the daytime.

WSIX FM radio operates on 97.9 MHz with an ERP
of 100,000 watts. The antenna is 1,800 feet above sea
level.

WNGE television operates on Channel 2 with an
ERP video of 100,000 watts and an ERP audio of 10,000
watts. The antenna is 2,049 feet above sea level.

Our sincere thanks for your information and
inquiry.

Sincerely,

A handwritten signature in blue ink that reads 'Thomas J. Beauchamp'.
