I am very pleased to report reception of KCAS on 1050 kHz on 2-17-79 from 6:17pm- 6:23pm CST. Your signal was good to fair with most QRM from XEG 150 KW in Mexico. I would like to offer the following details of your programming as proof of my reception:

6:17pm Rock music (song by Nigel Olsen)
6:18pm Time Check on KCAS 1050 by DJ
6:19pm Spot for Mary-Anne's Liquor on the Slaton- Grover Hwy followed by a KCAS jingle DJ indicated the end of his show
6:21pm Rock Music (song by Jackson Browne)
6:23pm Completely lost under XEG

You were received on a 1943 US Navy surplus receiver with a 12" ferrite core loop antenna. I'm located in Downtown Colorado Springs about 15 miles from the foot of Pike's Peak (Alt. 6600')

I usually don't do much sunset DX'ing but I've been laid up this week with cracked ribs and have spent many hours fattening up the log book with new stations.

I am enclosing return postage for your convenience and I'd appreciate a verification from KCAS to add to my collection if this report is found correct. Thank you in advance for your time and consideration in answering this reception report.

Sincerely,

Wayne Heinen
