Dear Wayne,

WOW, that was KEDA you were receiving on February 28, 2003 on 1540 kHz between 10:00pm and 10:10pm CST.

KEDA's ID is "KEDA San Antonio Radio Jalapeno" and our format is Conjunto Music which is Country & Western in spanish and is accordian fueled.

KEDA operates at 5000 watts daytime and 1000 watts nighttime. Our antenna pattern is non-directional days and our nighttime pattern is directionalized to the west, northwest using a six tower system.

Thanks for writing and continued good luck with your BCB DX hobby and The National Radio Club.

Sincerely,

A handwritten signature in black ink, appearing to read "Alberto P. Davila". The signature is written in a cursive style and is positioned above a horizontal line.

ALBERTO P. DAVILA V.P./GEN.MGR.
