General Manager  
KEGG Radio  
Box 600  
Daingerfield, TX 75638

Dear Sir,

I am very pleased to report reception of KEGG on November 4, 1988 on 1560 kHz between 6:15 AM and 6:19 AM CST. I would like to offer the following program details as proof of this reception:

- 6:15 AM Tune into sign on "KEGG owned by Roberts Broadcasting" read by a man. followed by a lady with what sounded like the days program highlights
- 6:17 AM Sounded like a song sung by children
- 6:19 AM ID by man and faded under KCAA, Aberdeen

As usual, the dominant pest KCAA has made for many a short logging on 1560. Your signal started out fairly good but degenerated under KCAA rather rapidly

Equipment in use while listening to KEGG consisted of a Radio Shack Model 12-655 TRF AM receiver with an oversized loop antenna mounted "bedside" for early morning listening before heading to work. By trade I'm a real estate appraiser and have been a BCB DX'er since 1964. Please find enclosed return postage to facilitate your reply.

This is the second follow up report of this reception to KEGG, evidently my first two reports never arrived or were mislaid. Please find enclosed a prepared verification card. Although I would prefer a written letter from KEGG, I realize that sometimes this is very difficult for the station staff, I would appreciate it if you could sign the card and drop it in the mail to me, in lieu of a more personal reply.

Thank you for your time and consideration in helping me with my hobby.

Sincerely,

Wayne Heinen

*Good Report  
Kegg 1KW day during Nov at that time  
and 500watts* *Wayne*
