SHARON GARRISON  
GENERAL MANAGER

Wayne Steiner  
427 E Caramillo St.  
Colorado Springs, C.O. 80907

Dear Wayne,

You are absolutely correct. Our consulting engineer and I were performing tests in respect to our annual proof of performance on our AM station. We run 1000 Watts daytime and 250 Watts night time and were on full power in order to accurately run the proof. I thank you for your interest and am more than happy to verify your report of test tones on 1-12-80 at 12:25.

Sincerely  
John C. Ellzey  
V.P. Operations
