Dear Wayne:

This is to answer your letter dated February 4, 1981, reporting reception of our radio station. Your report was verified by our station log.

We are a full time news, sports, and Country Music station operating with 500 watts power using the RCA BTA-1S transmitter. We are Directional at night using a two-tower array.

Our location is approximately 25 miles from the Gulf of Mexico and about mid-way between Houston and Corpus Christi. We have several industrial sites located nearby; however, we are still mainly an oil and ranch community of about 50,000.

Thank you for your report on receiving our station.

Regards,
