Aurora, CO 80013-3831

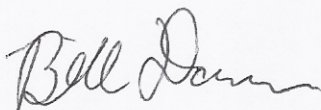

Dear Wayne,

This letter will confirm your reception of KSIX on 1230 KHz at 5:04 -5:05 AM on 11/14/2004.

The 5:05 spot for First Cash Pawn does match up with the program log at that time. This spot was locally produced so it could not be mistaken for another station. Your report is verified.

The distance of your report is amazing. KSIX is a 1,000 watt Non-Directional station operating 24 hours a day. We utilize an Armstrong 1 KW Solid State transmitter. Best of luck with your continued DX endeavors and if you are ever in Corpus Christi give us a call, we'd love to give you a tour of our facilities.

Sincerely

Bill Doerner
Operations Manager
