

# KSSA

RADIO VARIEDADES

1600 AM  $\Delta$  95.3 FM

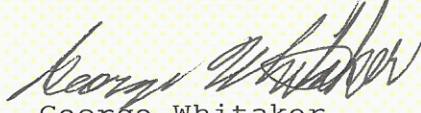

Wayne,

This letter is to confirm your reception of KSSA on Jan. 15, 1990.

Since we are one of the only stations in the nation operating synchronous transmitters, it is a matter for conjecture as to whether the signal you heard originated at our Plano or Dallas transmitter site. They are about 30 miles apart with the same programming on the same frequency.

  
(214) 528-1600  
METRO (214) 263-8504  
FAX 214-LATINOS

Thanks for your report.

  
George Whitaker  
Chief Engineer
