March 14, 2005

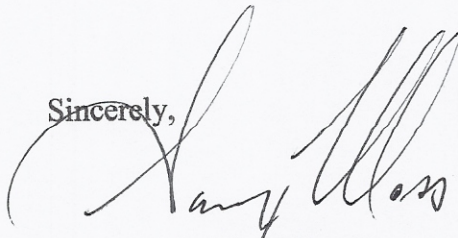

Dear Mr. Heinen,

In receipt of your letter stating detailed information about receiving the signal of radio station KTFW 1460 am in Burleson , Texas on March 7, 2005 I can attest to the fact that you in deed did hear KTFW 1460 am on that date as stated. You listed several of our advertisers that were checked back against our logs and in fact were played at those times on that date.

KTFW was just recently moved from Waco, Texas to Burleson, Texas in the past year. It is now a 5 kilwatt AM station broadcasting day and night to Dallas Ft Worth listeners.

Thanks for Dx ing and I hope this is satisfactory for your collection of stations listened to.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary L. Moss". The signature is fluid and cursive, with a large initial "G" and "M".
