Chief Engineer
KTRM Radio 990
Beaumont, TX

Dear Sir,

I am very pleased to report reception of KTRM on 990 kHz from 2:03a-2:15a CST. The following are the details of your stations broadcast:

- 2:03a Local news in progress
- 2:05a KTRM jingle & KTRM Wx given w/ 39° temp For KTRM News & Music this is "Terry Wayne" & song by Charlie Pride.
- 2:08a Terry Wayne show & Linda Ronstadt song
- 2:12a (bad fading) song ended & DJ played another C&W song
- 2:15a Promo for "40 greatest hits of all time" an somebodies show 6-7 on ???? day....Then DJ said "this was requested song" & played C&W song.

Your signal was fading quite a bit by 2:12a. I had listened to CBW Winnipeg Man. & they signed off at 2:03 and you came right up after them. There was QRM on the channel but I really don't know who from as your signal was the strongest here. My equipment consists of a Navy surplus receiver with a 3½' loop antenna &/or a 75' longwire antenna. I used both while receiving your station.

I'm located about two miles west of the city near the garden of the Gods. I'm a member of the National Radio Club, ~~one~~ hobby is hearing, reporting, and verifying AM broadcast band radio stations.

I neglected above to say that the date was 1/18/76. I am enclosing return postage to facilitate your reply. I'd appreciate a verification of this report if it is found correct. Thank you in advance and have a good 1976.

Yours Truly,

Wayne W. Heinen
Wayne Heinen

This will confirm the above,

*Thank You
Wayne Heinen
Vice Pres.
KTRM*
