Mr. Wayne Heinen  
C/O National Radio Club, Inc.  
4131 S. Andes Way  
Aurora, Co. 80013

Dear Mr. Heinen:

I was pleasantly surprised to receive the report of your reception of our station's signal. From your letter I am able to confirm your reception as our station.

Our station operates at 50 Kilowatts with a 4 tower directional array during the Day and with 5 kilowatt with a 12, (that is not a typo, twelve!) tower directional array at night. Your reception was from our daytime site.

As this is a new ownership of this station, KUII used to be the legendary KLIF at 1190 Khz, we do not have any bumper sticker or QSL cards, but I have enclosed a copy of our newsletter, which will give you some information about our station.

Again, thanks for the report.

Sincerely,

Joshua A. Socolof, P.B.E.  
Technical Manager
