Dear Wayne

Thank you for the reception report of our AM station KVET on December 30th 1987. We checked the program log and what you heard is confirmed. KVET is a directional AM station, being 1,000 watts in a southerly direction at night and 5,000 watts to the northwest in daytime hours. We broadcast in AM stereo using the Motorola C-Quam system. Thanks again for the nice report and good DXing.

sincerely,

Wayne Hardin W5OSP
Technical director
