Wayne Heinen
427 East Caramillo St.
Colorado Springs, CO 80907

Dear Mr. Heinen,

Thank you for your DX report for KDOT radio. It seems to be accurate. We recently rebuilt the AM facility, installing a new transmitter, phasor, ground system, and tuning unit. As you probably know, we are 5000 watts day, and 1000 watts night.(directional)

John Aughney

Chief Engineer
