Thank you, Mr. Heinen,

for your DX report 'way out in Cincinnati. Especially thanks for sending it twice! I didn't see it first time, and don't know who, if anyone here, did. We verify that your report accurately describes our transmission at that time.

It was interesting to scan the "Broadcasters' Guide" you also kindly sent, which I hadn't seen before. Of course we are happy to cooperate and always answer our DX'ers, among whom we've included Australia and California--but not Ohio.

Enclosed please find a couple of souvenirs from us, along with our best wishes for continued happy listening!

Appreciatively yours,
