

# KMTI 16 Radio

P.O.Box 1590 Manti, Utah 84642 Phone 835-7301

DATE Jan. 21, 1983.

D.X. VERIFICATION LETTER.

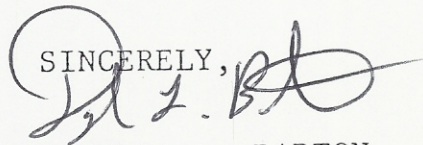

THIS LETTER IS TO VERIFY THAT YOUR RECEPTION OF KMTI-AM 1590 KHZ. MANTI, UTAH, U.S.A. ON 12/6/82 WAS CORRECT. KMTI RADIO OPERATES ON 1590 KHZ. USING AM MODULATION WITH A DAYTIME OUTPUT POWER OF 5000 WATTS NON-DIRECTIONAL INTO A 355 FOOT VERTICAL STEEL RADIATOR. KMTI'S NIGHTTIME POWER IS 1000 watts INTO A TWO TOWER DIRECTIONAL ARRAY WHICH DEVELOPS A FIGURE EIGHT DIRECTIONAL PATTERN WHICH FAVORS THE NORTHEAST AND SOUTHWEST. THE SECOND TOWER FLOATS DURING THE NON-DIRECTIONAL OPERATION AND IS USED ONLY AT NIGHT.... THIS SECOND TOWER IS 140 FEET HIGH.

KMTI RADIO SIGNED ON THE AIR IN 1976 ON 1340 KHZ. AND IN 1980, SWITCHED TO 1590 KHZ. SO WE COULD INCREASE OUR OUTPUT POWER TO 5000 watts.

MANTI, UTAH IS LOCATED IN THE CENTER OF UTAH IN SANPETE COUNTY. IT IS PRIMARILY AN AGRICULTURAL AREA WITH SOME COAL MINING AND OIL.

THANK YOU FOR YOUR D.X. LETTER AND INTEREST.

SINCERELY,

  
DOUGLAS L. BARTON
