March 16, 1987

Mr. Wayne Heinen  
4131 S. Andes Way  
Aurora, CO 80013

Dear Mr. Heinen,

I am pleased to confirm that you received  
WDCT at your location on February 16, 1987  
from 2:05 - 2:20 am Eastern Time.

At that time, we were operating with  
5000 watts using our 1965 Gates BC5H transmitter  
and our three-tower daytime directional array,  
which creates an oval coverage area running  
roughly SW - NE across the Washington area.

In response to our special DX Test, we received  
reports from Massachusetts, Connecticut, Ohio, New  
Hampshire, New York, New Jersey, Illinois, Indiana,  
Kentucky, Virginia, and Colorado, as well as Ontario  
and Quebec in Canada.

Thanks for writing, and good luck with your  
DXing hobby.

Sincerely,

David W. Schweikart  
Weekend Operations Manager
