Inspiration Media, Inc.

Dear Wayne,

Your letter dated October 7, 1996 arrived yesterday here at KLFE. This letter then, will confirm your report of hearing KLFE on October 7th, 1996 at the time you indicated, between 5:55 and 5:59 am Pacific Time. KLFE is one of two AM stations we operate here in the Seattle area. The other station is KGNW, 820 kHz with 50,000 watts daytime and 5,000 watts nighttime. KLFE at 1590 is 5,000 watts fulltime, although our nighttime pattern favors your direction there in the Denver area. I am enclosing a copy of our current program guide for both stations.

For twelve years I was Chief engineer for these stations. Then in March of this year I was appointed Corporate Projects Engineer for Salem Communications, the parent corporation of our broadcast group. I passed the Chief engineer responsibilities to another fellow on March 1st, 1996. I keep my office here at KGNW/KLFE so I can stay in Seattle, and enjoy the company of my friends on the staff here for many years, but no longer have to worry about getting midnight calls when equipment fails!! Now I am doing corporate engineering paper work and frequent trips around the country assisting in the various ongoing engineering projects at our other stations. I am currently 71 years of age, and grateful to be in continued employment since my health is good and I enjoy the work. (It really isn't work!!)

Our Salem group has grown to about 40 or more AM and FM stations around the country. Three of them are in your area: KRKS-AM, KRKS-FM and KNUS-AM. We are just now completing new studios for the stations there in your city of Aurora in an office building on South Vaughan Way at Heather.

I am on the Internet both at home and here at the office. If you are also on and would like to correspond sometime, my E-mail address is: dharris@kgnw.com. I am also a Ham as you'll see from my mini-QSL card

Sincerely yours,

Richard B. Harris
