Hi Wayne:

Thanks for your letter. Definately you heard us. We played march music, taped ID, short tome, and right back to march music. The same pattern for the half hour. Yours was the only wne from Colorado. We also heard from Iowa, Ill, Neb. Florida, Calgary, Victoria BC. San Jose, Cal. plus many others in Tenn, and Memphis of whom I asked a member there by the name of Jeff Parrish to see if sun records could get me a copy of Elvis's "I forgot to remember to forget" for some reason they never duplicated that ^{record} ~~letter~~ on an LP. I don't know why, but maybe because it was too emotional for Elvis. WE have been getting lots of requests for it.

Wayne, we just got our license for FM and the equipment is coming in Daily. A new MC MARTIN FM STEREO transmitter it ~~sitting~~ in place now plus the monitoring equipment in a new rack, but the automation equipment isn't here yet, and the thing that is holding it up is the men that will do the antenna work this time of the year. They say "not with the snow on the ground". We need 3 bays put on top of our tower and the transmission line brought down and The boss (Dean) got a quote of 4,500.00 labor to do the job. How about that? Anyway it was nice hearing from you, and all the rest, and like I told the gang, if you ever get up here in the mountians,(or want some pictures of our country) be sure to stop by and see us. ^{or write me on the pictures} We have lots of fishing and camping and there are roads thru these mountians that I haven't even found yet. Thanks again.

Sincerely,

Jerry Robinson
