

Good morning Wayne- In response to your letter dated 2/19 yes you were listening to KTFH 1680 am licensed to Seattle Wa. I finished building this station in February of 2003 and it has been on the air about a year. This is a facility in the expanded band that operates at 10 kilowatts non-d daytime and 1 kilowatt non-d nighttime. We feature multi cultural programming 24 hours per day. The station is owned by Salem Communications Corporation with headquarters in the Los Angeles California area.

- Thank you -
