December 22nd, 1980

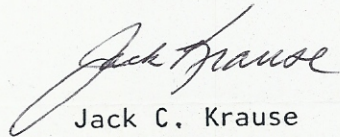

Mr. Wayne Heinen
427 East Caramillo Street
Colorado Springs, Colorado 80907

We are pleased to verify your reception of WAWA at
12:21 AM on December 15th, 1980.

Thank you for your letter with the log of our test broadcast.

WAWA broadcasts with a power of 1000 watts, at a frequency of 1590 kilocycles. The four tower antenna system is directional east, toward Milwaukee, from our Elm Grove location. Good listening to you and the Club.

Sincerely,

Jack C. Krause
Chief Engineer

Dear Wayne:

Just to drop a brief personal note that I was very pleased to hear from Colorado Springs.

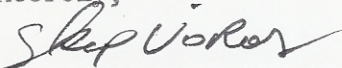

Although I have lived most of my life in Milwaukee, there was a time in 1977 that my home was Colorado Springs.

Your zip code even looks familiar! In 1977 I lived at 3940 Sonata drive. If my memory is correct that area is northeast of Academy Boulevard and Flinthrop. I think there is a McDonalds on the corner.

While living there I worked as a jock and engineer at KVOR, and KIIQ.

Happy DXing!!!!

Sincerely,

Skip Voros
Asst. Chief Eng.
