Dear Wayne;

In Reply to your letter of 9/4/65.. Your report was correct.

It might be interesting to note, that we are on a directional antenna after sundown local time. Operating at reduced power of 500 watts.

We are always interested in hearing from those at a distance, we have recieved letters as far away as Australia.

If you should ever pass through Wisconsin Rapids, feel free to drop in and look us over.

Yours truly

Dean Teske Asst. Eng.
