November 14, 1977

Dear Mr. Heinen,

Thank you for your reception report of November 4, 1977 concerning your reception of KOVE from 11:33 to 11:46 PM Mst on that date. This letter confirms your reception of our station.

KOVE has recently extended our hours of operations and we are now on until midnight, Monday through Saturday and until nine PM on Sunday. We started this new schedule on November 1. Previously we operated until 10 PM only. Our format is country western during the day, changing to an automated contemporary rock after 8 PM. We are affiliated with the CBS radio network. Our power is 5KW daytime, 1KW directional at night, and 500 watts prior to local sunrise.

Thank you again for your reception report, and good luck on your BCB Dxing. Several years ago when I was living in Los Angeles I was interested in BCB DXing also, and managed to log forty some states and several foreign countrys. Unfortunately I dont seem to have the time for it anymore.

Yours,

Bruce Fingerhood
