Dear Wayne:

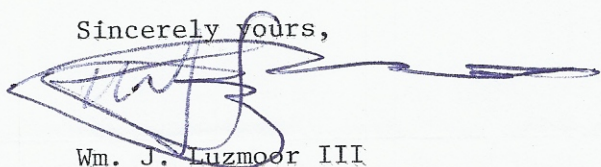

This will confirm your reception of KRKK as logged on November 7, 1977. It's always good to hear from DXers like yourself.

We seem to get great skip out of here on occasion and in the past year have even heard from individuals in Finland and Norway.

You are the first one to my knowledge that we've heard from as far south and east of us, however. We are 5kw directional nights in a clover leaf pattern north, and it's rare to hear from someone in your direction.

Thanks for the letter, and good listening!

Sincerely yours,

Wm. J. Luzmoor III
