Mr. Heinen:

The Voice of Destiny is pleased to verify reception of our inaugural program, which aired February 03, 1986 at 0230 gmt on 28150 kc. Our output was 12 watts in the standard AM mode.

You neglected to give the password of the day, which was "Bullwinkle", but you did know about the rat and we guess that counts as a verifiable detail.

Thank you for listening to Colorado's pioneer pirate station. We wish you happy listening and good DX!

This is verification number 007.
