ENTERPRISE, ALA.

Nov. 8, 1948

Mr. J. W. Brauner
23 Howard Ave
Williamsville 21, New York

Dear Sir:

This letter is to verify your reception of station WIRB which you picked up on Nov. 2nd on our frequency check program.

We found your letter most informative and were more than pleased to hear from you.

We are using a Gates 250 C 1 transmitter which uses two 810 tubes in push pull in the final stages modulated with a pair of 810's. our other equipment is also gates except the console which is our ~~xi~~ own design of a 23C Western Electric.

Thanks again for your letter.

Yours

David B. Jordan
