J. W. Brauner
17 E. Spring St.
Williamsville, N.Y.

Dear Mr. Brauner:

Thank you for your reports of the reception of WMFO, and I am sorry that your first two reports have not been acknowledged. However, as you know, we are just starting up, and things have been more or less confused, and no fan-mail has been answered heretofore.

I remember you quite well from your reports on the reception of WTFI in Athens, Georgia, winter before last, when I was chief operator there.

We appreciate your reports, and this winter we expect to run a series of early morning DX Programs, and when we do we shall notify you, if you are interested.

Very truly yours,

RADIO STATION WMFO
