J. W. Brauner
23 Howard Avenue
Williamsville 21, N. Y.

Dear Mr. Brauner:

This letter will verify your reception report on our signal of February 25, 1953.

Most of our checking is done from 5:50 to 5:55 prior to going on the air at 6:00. However, we had been having some transmitter trouble and the chief from Gates was down ironing it out for us.

KBHS is a new station. We went on the air on February 7, 1953. All of our equipment is Gates. We operate from six each morning until local sunset. However, we are making plans to go nighttime on 590 with 500 watts.

I sincerely hope that this verification will meet with your satisfaction and I want to take this opportunity to wish you continued good DXing.

Sincerely,

RADIO STATION KBHS

Ozzie
