Box 22  
Valier, Penn.

Dear Sir:

I sincerely appreciate the report from you on our Station KFDF at your location. The equipment here is RCA all the way from mike to ant. The tower is a stainless, 226 feet high and located in a swamp, we operate by remote control.

I am sorry that you havenot received conformation on your previous report but I thought I had QSL'd all the reports we received on our tests, better late than never I suppose. Again thanks,
