Dear Radio Brother:

Received your letter this morning and was very glad to hear from a radio brother. You certainly have a fine set for locating stations.

I also want to verify your reception. The times and names of selections were correct to the minute. I am certainly glad that our station came through 60% clear at such a distance. I hope that you will be listening to our next test program. I am not certain of the date yet but if I find it out beforehand I will write you to the effect.

We got a letter this morning from Clair Wells, 271 Aubrey Street, Winnipeg, Man, Canada, asking for a verification also. He was not able to pick up the selections but was able to hear the announcer asking to hear from the listeners. Says weather is not so good for reception in Canada this time of year.

Raleigh A. Biss, 106 W. Lake Street, Chisholm, Minn. also asked for a verification. He booked two of the selections but says the static was terrible.

Well, ole pal, thanks a lot for writing and hope to hear from you soon. Let us know how things are up there.

Very truly yours
