Mr. J. W. Brauner  
P.O. Box 22  
Valier, Pennsylvania

Dear Mr. Brauner:

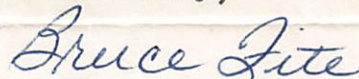

The management and staff of the all new K T C S Radio in Fort Smith, Arkansas wishes to extend sincere thanks to you for your letter acknowledging the test we performed June 15.

Your report was quite accurate and detailed. Your close observance is quite appreciated.

K T C S operates on 500 watts and has a broadcasting frequency of 1410 KC. As you probably observed from our test, we have just recently purchased a large amount of new equipment and have a new programing schedule.

Again, I want to thank you for taking the time to acknowledge our test. As it would be quite useless for us to attempt testing our new equipment if no one were willing to help.

Yours truly,

Bruce Fite, Manager
