

Clear Channel for Clear Listening

2-24-48

Mr. A. W. Bruner
New York

Dear Sir:

We are pleased to verify your reception of 1-23-49.

KX-RX operates from 6⁰⁰A M to 3⁰⁰A M daily with a power of 1000 watts on a frequency of 1500 KCLS. Our antenna array is a two tower system designed for minimum radiation at 61° true. Station equipment is RCA throughout with a BTALL transmitter and 76B5 audio control.

Thank you for your report and we wish you "good hunting" in your DXing.

Sincerely,

For The Staff

Frank Glass
Chief Engineer
