Dear Sir:

We are in receipt of your letter of the 2nd, inquiring about our DX broadcasts.

It is quite a surprise to find that you caught our "Surprise" DX broadcast of the morning of Nove ber 2nd. We had made no announcement of this broadcast at all and we very pleased to find that the response was quite good, considering the early time of the year.

Our purpose of this was to determine just how many "bugs" there are in the country, who sit up all times of the night "fishing", for it is to these that our DX programs are pointed.

KGAR has tentavily adopted a schedule of broadcast for every other week beginning with the program which you heard on the 2nd, making our next fall on Noveber 16th, followed by the 30th, and so on down the calender.

We certainly appreciate the spilit of publicity and response which we have received from the Newark Nes Radio Clubs, and find that you have just about 100% membership with the DX fans, for almost every letter we receive has some reference to your outfit.

We would greatly appreciate your furnishing us with any bit of publicity matter which might be given to our station for our files, for it is matter such as this which encourages us to continue with our DX programs.

Again thanking you for your letter, and trusting we may hear from you again in the near future, we are,

Yours very truly,
TUCSON MOTOR SERVICE COMPANY
Operators of KGAR Radio
