

# KATY

1340 KC - 250 Watts

San Luis Obispo, California

DECEMBER 24, 1951

J. W. Brauner,  
23 Howard Ave.,  
Williamsville, 21.  
New York, N. Y.

Dear Mr. Brauner:

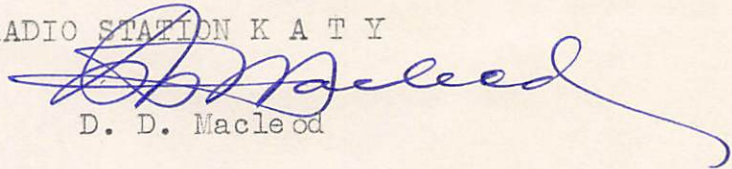

This will confirm your reception of frequency check made by K A T Y on morning of Dec. 17, 1951

Thank you for a very concise DX and it is surprising that our signal should reach you. The Mexican station which is on the same wave length has interfered with many other DX'er's but we always seem to come through.

With compliments of the season, we are,

Yours very truly,

RADIO STATION K A T Y
