Mr. J. W. Brauner  
23 Howard Avenue  
Williamsville 21, N. Y.

Dear Mr. Brauner:

Thank you for your report of KFI program reception. We have not heard from a listener in New York for some time, and are pleased to find that our signal is reaching your area. We are sending you our verification stamp.

As you probably know, KFI operates with the maximum legal power of 50,000 watts on a clear channel frequency of 640 Kc. However, the station operating during local daylight hours in Ames, Iowa, and the 50,000 watts signal of WSM on 630 Kc block out most Eastern listeners.

With best wishes for your DXing, we are

Yours very truly,

C. W. Seamans, Supervisor  
Technical Department
