Mr. J. W. Brauner,
17 East Spring St.,
Williamsville, New York.

Dear Mr. Brauner:

Your letter of January 24th
I have just received and I must say that I am
very happy to verify your reception of K I E V.
Your report as to the strength of our carrier
wave as compared with that of K G F J or
K J B S is very encouraging. I think that
we can promise you that modulation at this time
is corrected.

I am happy to inform
you that on the mornings of February 5th, 12th,
19th, and 26th, K I E V will broadcast a DX pro-
gram from 1:00 to 3:00 a.m. Pacific Standard
Time. I would appreciate your informing other
members of your club of these programs and also
receiving your reports and checks as to signal
strength, carrier wave, and reception.

Thanking you for your interest

I remain,

Very truly yours

W. F. Busse
