Dear Mr. Brauner:

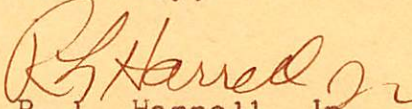

I am pleased to be able to confirm your reception of KMOD on Thursday morning, April 13, 1950 from midnight until 12:06 AM, PST.

We appreciate your interest in our station, and are glad you took the time to write us.

We have received many reports of reception in your part of the country, which is understandable, as we seem to be the last station on 1360 to sign-off for the day!

To date KMOD has received two reports of reception in New Zealand.

Sincerely,

R. L. Harrell, Jr.,
Chief Engineer
