Williamsville-21, N.Y.

Dear Mr. Brauner,

Many thanks for your excellent report of KMOR'S freq check on the morning of 12/17/51. Sorry for delay in replying, but we've been snowed under with heavy work load.

KMOR (formerly KDAN) been on air since June, 1951, transmitter RCA, BTA-250-L, two 810's in parallel in final, 250 watts to 155' tower, shunt-fed, grounded base, non-directional.

KMOR runs freq check with Press Wireless Monitoring us at Napa, Calif the 3rd Sunday of each month from 9 til 10 pm PST. However, if Napa is unable receive us, we fire up transmitter again in 3 hours at 1 AM the following Monday for check. So far has always been the latter.

Tentatively, we'll be running special DX program either 2/17/52 or 2/18/52 from 1 til 3 AM PST presenting solid jam session, collectors items and pure dixieland. We're making arrangements with Nat'l Radio Club and Newark News Radio Club now.

Once again, many thanks,

73 ,

Bill
