Dear Mr. Brauner:

This letter will verify your report of reception of KVVC's signal, Wednesday night, Dec. 14, 1949 PST.

Happy to hear we were out doing our Mexican friend on 1590 KC at that Particular time. We use an RCA transmitter employing a two tower directional array, 314 ft. towers, half wave.

Here's wishing you a very happy New Year and continued successful DX'ing.

Best Regards,

Chuck Farmer
