

RADIO STATION
K C R T

TRINIDAD, COLO.

June 11, 1946

J. W. Brauner
17 Spring Street
Williamsville N.Y.

Dear Sir:

I am very sorry that my letter of May 13, did not contain the information for which you had asked, so perhaps I can give it to you at this time. According to our station log your report corresponds in detail.

The station is located about one mile south of Trinidad and contains both studio and transmitter. We have all Gates equipment with a 150 foot shunt fed antenna, fed by 121 feet of coaxial. We are on the air from 7:00 A.M. to 10:00 P. M. each day and are conducting frequency tests with Commercial Radio Equipment Company between 1:00 and 2:00 A. M.

Thank you for your very nice letter.
I remain '73's,

Yours very truly,

Chief Engineer
