Dear Sir:-

Cooperating with the Pueblo Radio Broadcasting Station KGHF, which operates on a power of 250 Watts and a frequency of 1,320 Kilocycles, we are sending you today, under another cover, copy of general folder illustrative and descriptive of Pueblo and vicinity. Should you desire further information, we have special folders on industry, climate and health, and recreation in the mountains (the San Isabel National Forest), which we will be glad to send you upon request.

Pueblo City and Pueblo trade territory are making substantial growth, and opportunities for manufacturer and investor are well worth investigation.

You are invited to visit Pueblo; and when you come, we will be pleased to have you call at the Pueblo Commerce Club rooms.

Very truly yours,

PAG MB

 Secretary.
