January 18, 1943.

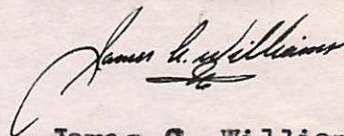

Mr. J.W. Brauner,  
17 Spring Street,  
Williamsville, N.Y.

Dear Sir:

Among the many letters received from DX fans on the event of our broadcast Christmas morning, I was especially glad to receive such a complimentary and comprehensive letter from a DX friend with as much experience as you have had. I am sorry to state that we do not keep a log of musical selections played, however we were on the air until, as you say, approximately 3:05 A.M. As I remember the program, your report is very complete. We do broadcast on 1450 KC., with a power output of 250 watts.

Thank you for your complimentary notations on tone and modulation quality as well as the program itself. In case we run a DX program in the future, I hope that I shall hear from you again.

Yours truly,

James C. Williams,  
Engineering Department.
