Mr. J. W. Brauner  
17 Spring Street  
williamsville, New York

Dear Mr. Brauner:

Thank you very much for your report of reception of the National Radio Club test program which we broadcast last Sunday morning. It is a pleasure to know that you had such good reception up there.

I personally always liked band music and I agree that band music and pipe organ music are both neglected by broadcasters. Formerly both forms of music were popular on the air.

The results of the special test were gratifying although we did not hit the Coast as we had hoped. At least at this point no reports have come in. Texas and New Mexico were the most distant points to which our signals reached.

The remarks about the weather slipped over Bernie Anderson's tongue before he realized what he'd said. As you know such comments are restricted. Thank you again for letting us hear from you.

Yours truly,

  
Stuart Leland
