EDMONTON, ALBERTA  
CANADA

MARCH  
SEVENTH  
1934.

Mr. J. W. Brauner,  
17 East Spring Street,  
Williamsville, New York,  
U.S.A.

Dear Sir:

I have your letter of March 3rd and thank you for your report. We are certainly meeting with very poor success in trying to reach the DX listeners of the Eastern United States and Canada. Our local conditions on that night were not good. The previous evening distant stations were coming in well, but on the night of the 2nd to 3rd reception was bad here and we felt that we would not be very successful on that night.

We shall not put on another test this season, but hope to do so in October or November, by which time certain tests and improvements to our transmitter will have been made. Our station is used for experiment and research by the Department of Electrical Engineering under whose direction the present transmitter has been built up and there is no doubt that after a summer's work we shall be in a greatly improved position for DX tests and transmission generally.

We will give your club lots of notice regarding our next test.

Yours very truly,

RADIO STATION CKUA,

per H. P. Brown

HPB:T

*P.S. Two reports OK from Baltimore this a.m.*
